WEB DEVELOPER

OBJECTIVE

I'm a passionate IT professional with a background in Sales and Marketing, eager to transition into the realm of web development, particularly focusing on C#, JavaScript, TypeScript, ReactJS, and NodeJS. Proficient in these technologies, along with Git, Scrum, REST APIs, OOP, and database management. I'm actively seeking opportunities to join your dynamic team and contribute to your company's success in the ever-evolving world of web technologies.

TECHNIAL SKILLS AND INTERESTS

Programming: C#, Javascript, TypeScript, HTML+CSS.
Frameworks: ReactJs, NodeJS, ASP.NET Core MVC.
Databases: Relational Database(MySQL), MongoDb, PostgreSQL.
Web Technologies: Bootstrap, REST API, JSON.
Software and IDEs: Eclipse, Maven, Visual Studio Code, NetBeans, Visual Studio, Microsoft Office.
Software of graphics and diagrams: Figma, Adobe CS suite, Draw.io, ArgoUML.
Project management: Agile, Sprint Planning, Scrum, Jira, Trello, Github, Gitlab.
Operating Systems: Linux, Microsoft Windows, macOS.

PROJECTS

- **Electronics-E-store - JavaScript - ReactJS - NodeJS.** [Link]

  Built on ReacJS and NodeJS platform for selling electronic devices.

  - **Features**: Fully Responsive - Login and check Login information - View product details - Add to cart - Buy now - Confirm order.
  - **Used Technology**: ReactJS (client), NodeJS (server), REST API, SQLite for database management, HTML+CSS for GUI development.
  - **Used Project Management**: Github and Trello.
  - **Team of 5 people**: I'm responsible for designing interface detail pages and adding to cart. I wrote an API for add and show comment functions, and I called the API to perform the add and show comment function. I wrote functions for the details page.
  - **Execution time**: 2 weeks.

- **Memory Game - JavaScript.** [Link]

  The game of finding similar pictures is based on the player's memory. Built on JavaScript language.

  - **Features**: Choose Theme - Choose the same picture to get points - Win Game - Show The Best Playing Time Of Different Plays.
  - **Used Technology**: JavaScript, HTML+CSS.
  - **Used Project Management**: Github.
  - **Team of 2 people**: I am responsible for designing the interface, the function to display players who have found two identical cards, and the function to compare the best players.
  - **Execution time**: 1 week.

- **Contact Management Application - C#.** [Link]

  Application with functions of adding, editing, searching, and deleting contacts.

  - **Features**: Add - Edit - Search - Delete contacts.
  - **Used concepts**: Object-Oriented Programming (OOP) and Model-View-Controller (MVC) design pattern.
  - **Used Technology**: C#, SQL.
  - **Used Project Management**: Github.
  - **Team of 2 people**: I'm responsible for writing functions for login, add contacts, and delete contacts.
  - **Execution time**: 1 week.
